Full Steam Ahead After School Enrichment

STEAM's mission is to provide cultural enrichment to the children of the Minot area through enjoyable, exciting, and creative experiences; focusing on science, technology, engineering, art, and mathematics.

In partnering with the Schools, STEAM's After School Enrichment program, ASE; aims to provide opportunities wherein children can learn to make good choices, discover new pastimes and explore new ideas in an environment which is safe, supportive, and creative.

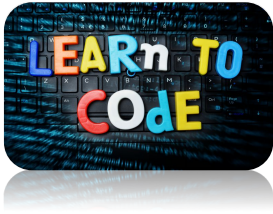

American Sign language

Interactive & engaging class where children learn the basics of a new language in a fun way through instruction, activities & games. Each week they will learn new vocabulary while also learning more about the deaf culture.

Chess

Chess is the classic game that develops spatial thinking and strategies and builds focused concentration. The class is geared for all levels of chess players. Beginners learn basic game rules and opening tactic moves.

Coding

Our innovative courses teach computer-programming skills through interactive and exciting projects. These fun classes are perfect for kids who have great imaginations, like figuring out how things work or simply love technology.

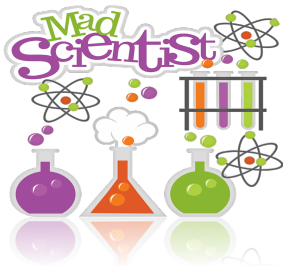

Jewelry Making

Basic beading classes that will have you making earrings, stringing beads, & learning about color and design in just a couple of hours - all the necessities to making great jewelry.

Lego Club

LEGOs are a great way to excite children about problem solving and Innovative thinking. Each week we will have various engineering design challenges that children can build solutions to. There will also be time for free building each week.

Mad Science Lab

Each week will focus on a different area of Science. Biology, Chemistry Natural Science & Physics with multiple fun and sometimes messy Hands on experiments.

Painting with Watercolors

Students will learn basic watercolor washes, color theory and the color wheel, how to mix colors to create new colors, and skill and control in watercolor painting.

Photography

We will learn the basics of photography while having fun exploring and taking snapshots around the school.

Pottery

Kids Clay is a program offered as a chance for kids to get their hands messy and their creativity flowing. Through these programs kids have the chance, under the guidance of the instructor, to build their own custom pottery pieces.

Robotics

Children collaborate working together to design and program a robot as well as solve a selected problem.

Theatre

In theatre students use their imagination to ground themselves in character, expand their senses while using the space, and have fun portraying a character.

Yoga

Children will learn how to focus and center themselves with various breathing and visualization techniques. They will also learn self-respect and respect for others with the practice of fun and challenging poses, partner and group poses, lots of yoga games.

Register Online

www.steamnd.org

Click on the After School Enrichment tab; ASE

Click register here, or scroll down.

Locate and click on your school.

Select the program offered and follow the prompts to complete the registration.

Frequently Asked Questions

Q: How long does each program take?

A: Each program runs for 90 minutes directly following school, 1 day a week for 4 weeks.

Q: My child is interested in a program but it isn't listed under my child's school, will he be able to participate?

A: Every 4 weeks a new rotation of programs will be available at your school, chances are if it isn't available 1 month it will be in the future.

Q: Will there be a time for snack?

A: Yes, each program will have a specific amount of time set aside for snacks, however ASE does not provide a snack. Children must bring their own snack from home.

Q: Can I register my child for more than 1 program?

A: Yes, as long as that program is offered at your child(s) school then registration is open to all children until the maximum number is reached.

Q: My child attends the CLC can they participate in the ASE program?

A: Yes, the program instructor will escort all children that attend the CLC program upon the completion of each class.

Q: Does my child need to bring any supplies?

A: ASE will provide all the materials needed for the program.
